MAGnet-HCCN's GOALS

- Reduce cardiovascular risk factors for rural communities across our service areas.
- Improve access to integrated behavioral health and primary care services

Inspiring Better Health

Introduction

Mississippi Access Group Network-Health Center Controller Network (MAGnet-HCCN) is a Mississippi chartered corporation consisting of five community health centers with a mission to strengthen collaboration and coordination for improved health access, performance, outcomes and cost efficiencies. MAGnet-HCCN's vision is to improve the health status for all Mississippians through integrated health.

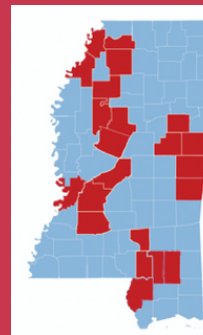

This partnership consists of: Aaron E. Henry Community Health Services, Inc., Dr. Arenia G. Mallory Community Health Center, Greater Meridian Community Health Center, Jackson-Hinds Comprehensive Health Center, and Southeast Mississippi Rural Health Initiative, Inc.

The MAGnet-HCCN service area consists of twenty-four counties throughout Mississippi - including Attala, Carroll, Coahoma, Copiah, Covington, Forrest, Hinds, Holmes, Kemper, Lamar, Lauderdale, Leflore, Madison, Montgomery, Noxubee, Oktibbeha, Panola, Pearl River, Perry, Quitman, Tallahatchie, Tunica, Warren, and Winston. Collectively, the service area population is 966,401 (U.S. Census QuickFacts: July 1, 2021). The service area residents are 50.6% Black/African American, 47.0% white and 2.4% other races.

Oversight for this proposed project will be provided by the MAGnet-HCCN Coalition Board of Directors.
